

Registered Nurse (RN) for Home Health Care - Full-Time

Shamrock Home Care–Fairfield, CT

Job Description

Registered Nurse (RN) for Home Health Care - Full-Time

Company Information:

Shamrock Home Care is a family owned business that started back in 1990 and is serving Southern Fairfield County Communities. Our rapid growth and success are due to the professional way we manage the business and the exemplary service we give to patients and to the health community.

Position Overview:

- Shamrock Home Care is seeking a Registered Nurse for a Home Health position doing visits to patient's homes. The company is a friendly, well-established, and privately-owned home health agency. No home care experience necessary, but it is preferred. All Registered Nurses must have at least two years experience in hospital, Skilled Nursing Facility OR home health. The home care Registered Nurse (RN) will enjoy lots of flexibility being in the home health setting.

Benefits:

- Mileage paid so that is one cost that you don't have to worry about- they pay 45 cents per mile.
- 25 Paid time off per year (between sick, vacation and holidays)
- Medical insurance subsidized , dental, vision, offered at a reasonable price.
- Salary is calculated based on experience in home care as well as total amount of experience as an RN.
- Flexible schedule so you can make time for personal appointments and other obligations.

Requirements:

- Must be an RN who is licensed in the state.
- Must have at least two years experience in the hospital, skilled nursing or home care setting.
- Full time 40 hours/week is preferred and part time candidates will be considered.
- Please submit resume and interview availability.

Duties and Responsibilities:

- Assesses patient and family to determine home care needs at regular established intervals
- Initiates plan of care and makes necessary changes as patient's needs evolve
- Evaluates and provides treatment to patients in their homes

- Instructing and advising patients and/or their families in their care
- Administers medications and treatments as prescribed by physician
- Completes and submits related paperwork and Patient notes neatly, and on time.
- Identifies discharge planning needs as part of care development and implements prior to patient discharge
